Shaul Livnay, Viorika Delano, Karl Fuchs, and
Alida lost-Peter**

The 12th International Congress of Hypnosis took place on July 26 - 31, 1992 in Jerusalem. It was cosponsored by the Israeli Society of Hypnosis (ISH) and the International Society of Hypnosis (ISH). These two societies, together with the Milton Erickson Society for Clinical Hypnosis, Germany (M.E.G.), also cosponsored the preceding Joint Conference: Ericksonian Hypnosis and Psychotherapy, July 22 - 24, 1992. Both meetings were planned to take place in 1991, have been moved to Rome because of the political tensions at the Gulf region and the outbreak of the Gulf War in January 1991. As this war didn't last long the two conferences were moved back to Jerusalem but had to be postponed for one year to 1992. The present volume contains a selection of the papers given at both meetings. To the participants, these meetings of Jerusalem were unique in several respect. This volume is designed to bring back memories to those who participated, and to stimulate imaginations of those who, for various reasons, couldn't come.
